Review of State Board Agenda/Minutes Bobby Jones, Chair • Pgs. 9-17

During the October State Board Meeting, state funds were approved for Six Industrial Maintenance Trainers from Technical Training Aids for Industrial Systems programs. This equipment will be used for Contract Training in the area of Industrial Systems. The college has been asked to increase its thru-put of trainees in Calendar Year 2024 by 35%. To meet this request, the college must increase their number of trainers. In FY2023, the college conducted more than 122,000 hours of contract training, in great part, using Amatrol trainers in conjunction with Amatrol e-learning curriculum. It is projected that the college will do in excess of 175,000 hours of training in FY2024 if this additional equipment is purchased.
